NANTON MAN DROWNED

Came From Carman Manitoba About
Year Ago

(Special to the Bulletin)

Calgary, July 10.—L. S. Campbell, a prominent citizen of Nanton, was drowned in the river there yesterday afternoon. The body was recovered last night. Deceased has been a resident of Nanton for about a year coming from Carman, Man., where he resided for ten years. He leaves a wife and five children.

Frank Houghton, a prominent rancher, was injured while playing polo at the Fish Creek polo grounds a few miles from here and may die. He injured his spine and concussion of the brain developed.

8 WANT ALL NIGHT SERVICE.

(Special to the Bulletin)

Winnipeg, July 9.—For the first time in the history of this city electric cars were seen on the streets on Sunday, the service starting at 7 o'clock yesterday morning and continuing all day. From early morning until late at night the cars were crowded more by people who rode for the novelty of the thing than for any business they had. Many visited the parks, which were filled with people all day and efforts will be made to hold sacred concerts in several of the parks during the summer months. An important feature in connection with the Sunday car service is the driving away with double fares after 11 o'clock in the evening. According to the Street Railway Company's franchise the company is obliged to run all night cars when the city has attained a population of over 100,000, and as that mark has been passed several months ago the council will at once take steps to compel the company to inaugurate an all night system.

MAN ARRESTED AS PICKPOCKET

Traveller Lost \$80 at the Calgary
Station

(Special to the Bulletin)

Winnipeg, July 10.—William Bell, travelling from Winnipeg to Lethbridge, complained that he had his pockets picked of \$80 at the Calgary station. He gave information to the police which led to the arrest of Wm. Green.

CHANGE IN DAY OF SAILING

Montreal, Que., July 10.—The Canadian Pacific liner, the Empress of Ireland, sails for Liverpool Friday and in future all the company's steamers will sail on Thursdays. This change is necessitated on account of the change in the Canadian sailing dates over which there has been a brisk controversy in shipping and postal circles for some time. The change has been made in order to have the sailing dates uniform with other sailings.

G. T. P. TERMINUS.

(Special to the Bulletin)

Vancouver, B. C., July 10.—Prince Rupert, the new city of Northwestern British Columbia, and the coast terminus of the Grand Trunk Pacific R. R., has already begun its existence and its foundation for the coming western metropolis is laid. The camps of the surveyors, both those of the Dominion and the Railway Company, are pitched in the new city's limits. It is the intention to make surveys of the coast line, of waters of the inlet, and the government engineer expects to remain there until November. The railway surveyors are busy in the vicinity of Seal Harbor, where the new saw mill will be built. Here a wharf and

SURPLUS FROM INTERCOLONIAL

Annual Deficit Has Been Turned In-
to Substantial Profit

(Special to the Bulletin)

Ottawa, July 10.—On the railway estimates, Hon. Mr. Emmerson announced today that the surplus of the intercolonial railway for the year was fifty thousand. The length of the transcontinental railway between Winnipeg and Montreal, would be 1400 miles. Macdonnell was told by Sir Wilfrid Laurier that the Canadian commercial agent at Chicago had been withdrawn because of small returns. Sir Wilfrid Laurier said trade with Japan was expected to make great strides. If Canada has as good service on the Pacific as the Atlantic. It would be certain to get the majority of travel from Europe to the Orient. Such lines would be much more popular than those by the Suez canal.

FRASER RIVER SOCKEYE SEASON OPENS

New Westminster, B.C., July 10.—The Fraser River sockeye season opened this morning and continues until August 25. Unless the salmon pack is a small one the cannery does not expect to make much money this season on account of the increased running expense. The increased price of labor this year is ten cents per case more than last year. Block tin has advanced 50 per cent and solder 75 per cent. As there are about a dozen sockeye to each case the increased cost of the fish alone is \$1.20 to \$1.30 per case. Naturally the cost per case will be more than last year unless the run is an exceptionally large one. In which case the supply will lower the price and the cannery will barely clear expenses. So uninviting are the prospects that many of the cannery's will not be open for business this year. The run this year is earlier than usual and many expect it will be large.

CLOSE SEASON FOR MOUNTAIN SHEEP

Victoria, July 10.—A close season for mountain sheep in the southern portion of British Columbia went into effect today and will extend over three years. The area covered extends from the C.P.R. to the international boundary line and from the coast to the Columbia river. The close season for moose also begins today instead of on July 1 as was previously stated in the British Columbia Gazette. The close season for these animals has been extended over the three years at the request of certain British Columbia sportsmen who claim that at the present rate of killing they would soon have become extinct in the country affected by the law.

VICE ADMIRAL IS RESIGNED

Rojestvensky Alone Gains Credit In
Court Martial Trial

(Special to the Bulletin)

St. Petersburg, July 10.—Testimony in the case of Vice Admiral Rojestvensky, who is being tried by court martial for the surrender of the destroyer Bedovi in the battle of the Sea of Japan, has been submitted. The testimony brought out the details of the cold-blooded manner in which Captain Baronoff of Bedovi abandoned the crews of the battleships Oosha, Kniaz, Suraroff and Alexander III. to death by drowning, refusing to save a single person. The president of court called Capt. Baronoff a coward in open sitting. Rojestvensky is the only defendant emerging from the investigation with any credit. He has submitted his case in lieu of pleading by counsel in the following words: "Sirs, Russia's fleet has been humiliated. The people have confidence in you and I await my punishment."

WINNIPEG HOUSE WAS DESTROYED

Inmates Had Narrow Escape From
Death

(Special to the Bulletin)

Winnipeg, July 10.—William Atkinson's house at Mount Royal six miles west of Winnipeg city hall, was demolished by lightning this morning and his children, Joseph, Kathleen and Myra, and a visitor, Mrs. William McKee, of Carman, had a narrow escape from death. The beds on which they were sleeping were buried in a mass of debris. The fire broke out in the upper storey of the house. Fortunately it was extinguished with little difficulty.

LONE BANDIT HELD UP STAGES

(Special to the Bulletin)

Three thousand acres of dairy farms are inundated.

The bill got a second reading tonight and the committee stage will be taken up tomorrow. An amendment will be made strengthening the clause which will give to provinces their present rights to enact such legislation as comes within their jurisdiction affecting Sunday observance. The criminal provisions will be left to the federal authorities.

The Downpour Amounted to More
Than An Inch

The records kept at the Meteorological Observatory on Fifth street show that the amount of rain which fell during the thundershower last evening was 1.69 inches.

Mr. Young, the observer, says that this was an exceptionally heavy fall, the heaviest that has occurred in Edmonton for some time.

BODY FOUND IS IDENTIFIED

Is Body of Lad who Resided at Rab-
bit Hill

The body of the young lad found in the river at Walter's mill on Sunday afternoon, and which is now lying at Wa'nright's undertaking parlors, Strathcona has been identified as that of Mosett, a son of Mike Mosett, of Rabbit Hill. The boy in company with a younger brother had gone to the river to bathe. Mosett got beyond his depth and sank immediately. The younger brother hastened to tell his father, but when they reached the river again nothing could be seen of the body of the boy. As was at first supposed the body had floated with the current, and had become entangled among the logs in the boom at the mill. The funeral atakes place this afternoon to the Strathcona cemetery.

KAFFIR RISING

IS IMMINENT

Massacres and Outrages Continue in Vaal River Colony

(Special to the Bulletin)

Johannesburg, Vaal River Colony, July 10.—The panic of the inhabitants of this district, through fear of a general Kaffir uprising, is increasing. Fresh crimes are reported, and frontier farmers and their families are living in hourly terror of massacres. Monday a gang of Kaffirs and Chinese coolies descended upon a lonely farm of a family named Ruse, pillaged the place and after threatening to murder the entire family, went away into the veldt, dragging a daughter of the farmer with them. In the veldt they attacked the woman and fled. A store at Rooftop in which many inhabitants of the town barricaded themselves was attacked by a swarm of Kaffirs and coolies. The garrison put up a determined resistance however and the assailants were driven off after losing several.

The One Right Steel Plate Range

Until we found out just the right way to use asbestos to keep the heat in a cooking range where it must cook the food instead of cooking the cook, every steel-plate range kept the kitchen broiling-hot. This range is a cool range—the top shield and lining is thick asbestos, so the heat stays inside the range and keeps even hot. Food is better cooked, quicker cooked and cooked for less fuel-cost.

For Cleanly Cookery
OXFORD CHANCELLOR
BURNS WOOD OR COAL

Everything about it is cleanly—empty the ash-pit without fluffing ashes over everything; feed-pouch takes fuel without clutter and muss. Fuel does more cooking because this range has the right draft-control, sensitive, easily-governed—bring a fire up quick, cool it down quick.

TUESDAY, JULY 10, 1906.

CONCERNING IMMIGRATION

The Calgary Herald discusses the im-
migration movement as follows:

"The growth of the immigration in-
to the Canadian West may be seen
in some measure from the statistics
published in the Board of Trade
handbook for 1906.

In 1896 49 settlers moved into the
Territories and Manitoba.

"1897—113.

"1898—9,119.

"1899—11,945.

"1900—13,570.

"1901—17,958.

"1902—21,672.

"1903—47,780.

"1904—48,173.

"1905—105,000.

"This year promises to eclipse all
previous records. Thus far the re-
turns are larger and a conservative
estimate might place the immigration
at 150,000.

"Whether the tide will commence
to ebb as soon as Western Canada's
free lands have been consumed is still
uncertain. There are few homesteads
available in the immediate vicinity of
towns and cities. The trek of those
who want them is northward, and
Southern Alberta cannot much longer
furnish farms to the penniless and
desperate populations of the great
English centres of population.

"But this year a new type of set-
tler has set an eagle eye on the rich
prairie lands of the West. He has
experience and capital. He brings
with him not only the settler's in-
terests, but the speculator's. He is
not dependent upon Government char-
ity, but is ready to invest at prevail-
ing market quotations.

"The influx of this new type indi-
cates the new position which the Can-
adian West is assuming in the eyes
of the nations. Formerly her wealth
was untapped. Her wheat areas had
never been fairly tested. The climate
was a state of stumbling, and men
doubted whether crops could be suc-
cessfully grown in the short summer
season between May and October.

"During the past two or
three years these uncertainties have
been dispelled. Western Canada has
vindicated her climate. The immense
crops of 1904 and 1905 have silenced
criticism. The pamphleteering of the
Government agents and land com-
panies has laid before the American
public the astounding averages of the
past ten years. Canada has dumped
her grain on the American markets
to convince her skeptical neighbors
that there is money in the north.

"The days of fathering the new set-
tlers are rapidly passing away. The
feature of the new West is no longer
the prairie schooner and the priva-
tion of a frontier life. An immigrant
no longer suggests the gypsy,
and the indulgence of the pauper.
The immigrant of today does not land
in the immigration halls at Calgary
and Edmonton. He comes to the best
hotels and buys for spot cash. He
is a new type and a better type.
His coming augurs well for the fu-
ture of the west.

"The philosophy of hard facts is
behind this extensive influx into
Manitoba and the new provinces.
From 1898 to 1905 the average of
Central Alberta wheat yield was 15
bushels higher than that of North

Dakota, 17 bushels higher than
South Dakota, 13 bushels higher than
Minnesota, 33 higher than Wisconsin.
This province raised per acre 13 bush-
els more than Michigan, 14 more than
Illinois, 13 more than Iowa, 15 more
than Nebraska.

"Her oats averaged 15 bushels to
the acre more than North Dakota's,
and from 8 to 17 bushels more than
South Dakota, Minnesota, Wisconsin,
Michigan, Illinois, Iowa and Nebrask-
a.

"When it is considered that this
land, with its large productiveness,
is selling at one-fourth the price of
North Dakota land and one-sixth the
selling price of Illinois farm prop-
erty, it is to be wondered that the
overcrowded republic to the south
should find a depository for its en-
terprising citizens in Canada? Uncle
Sam may well view with alarm the
northward trek. Canada is bidding
successfully for her best citizens."

Thus in unguarded moments the phen-
omenon of the L. B. R. immigration
policy is attested by those least
willing to see anything commendable
in the policy or administration of the
present Government.

The particular satisfaction of the
Herald however is drawn from the
fact that the remarkable progress of
Western Canada is drawing thither a
large number of men of means who
purchase land. We are not so sure
that this incident is an unmitigated
blessing. If it were true that these men
were possessed of both the interest of
the settler and the interest of the spec-
ulator, their advent might be regard-
ed as altogether for good. But it is
a matter of common knowledge that
the majority of the men who come to
Western Canada to buy land come only
to buy and sell land. Their interest
and purpose is altogether that of the
speculator as contrasted to the inter-
est and purpose of the cultivator.
However legitimate speculation may be
and however great the general ap-
parent benefits which result from its pre-
valence, the fact remains that the fu-
ture of the country rests upon the cul-
tivation of the land and not on the
buying and selling of the land.

It follows that the really important
immigrant is the man who comes to
cultivate rather than the one who
comes to buy and sell land. If the
settler brings a considerable sum of
money and devotes it to the develop-
ment of his property his own way will
be the easier and the results of his
labor will be the more quickly felt in
the industrial life of the country. But
as a matter of choice the welfare of
the country is promoted more by the
settler who brings little money or even
no money at all than by the man who
brings a large amount of money to be
devoted to speculation in land as dis-
tinguished from the cultivation of land.

The relative value of these two
classes to the country may be fairly
judged by considering the consequences
should either class cease to immigrate.
Supposing the immigration of actual
settlers should cease and the advent
of the speculators continue in undim-
inished numbers. It does not require
argument to demonstrate that such
condition could result only in tempo-
rarily inflated prices followed by a fi-
nancial panic and a depreciation in land
values which would paralyze the coun-
try's progress for a decade.

Supposing on the other hand the
speculators should cease to come but
the settlers continue to pour in. The
present cash market price of land
might become dormant or even recede
temporarily, but the steady develop-
ment of the land would speedily restore
any depression, and would realize com-
parative values on a sound basis of the
difference between improved and unim-
proved land, which would secure to the
man whose labor made the difference
the just reward for that labor.

We don't ask you to buy

Westmount

Because it is near the G.T.P. yards etc. It may be that there are some
people who are fond enough of coal dust and smoke, the rumbling of trains,
the tooting of whistles and the ringing of bells for twenty-four hours every
day, to want to live somewhere within half a mile of what are bound to be
very busy railway yards but we believe there are some people who would
just as soon live a little farther away.

We ask you to buy

Westmount

Because it isn't near the G.T.P. or any other yards Just put on your
thinking cap, size up the situation and arrange to buy where the choice res-
idential property can be had. The G.T.P. yards are going to prevent the city
growing Northward. As it is bound to grow it must grow East and West.
WESTMOUNT is undoubtedly the finest suburban property in the West End.
Just outside the city limits on the St. Albert road—between the West end
city park and the city.

Large lots \$100 up, 1-3 cash, balance 1 and 2 years, 7 per cent.

These lots will look cheap in a short time with \$100 added to the present
prices. YOUR OPPORTUNITY IS NOW. DON'T MISS IT.

CASEY'S REVENGE.
 (A Sequel to "Casey at the Bat.")
 There were saddened hearts in Mudville for a week or even more. There were muttered oaths and curses—every fan in town was sore. "Just think," said one, "how soft it looked with Casey at the bat, and then to think he'd go and spring a bush league trick like that."

All his past fame was forgotten—he was now a hopeless "shiner." They called him "Strike-Out Casey" from the Mayor down the line. And as he came to bat each day his boom heaved a sigh.

While a look of hopeless fury shone in mighty Casey's eye.
 He pondered in the days gone by that he had been the king;
 That when he stroled up to the plate they made the welkin ring;
 But now his nerve had vanished—for when he heard them hoot—
 He "fanned" or "popped out" dally, like some minor league recruit.

He soon began to sulk and loaf—his hating eye was lame;
 No home runs on the score card now were chalked against his name;
 The fans without exception gave the manager no peace.
 For one and all kept clamoring for Casey's quick release.

The Mudville squad began to slump—the team was in the air;
 Their playing went from bad to worse—nobody seemed to care;
 "Back to the woods with Casey" was the cry from Rooters' Row.
 "Get someone who can hit the ball and let that big dub go!"

The lane is long, some one has said, that never turns again,
 And Fate, though fickle, often gives another chance to men;
 And Casey smiled—his rugged face no longer wore a frown—
 The pitcher who had started all the trouble came to town.

All Mudville had assembled—tenthousand and fans had come
 To see the twirler who had put big Casey on the bum.
 And when he stepped into the box the multitude went wild,
 He doffed his cap in proud disdain—but Casey only smiled.

"Play ball!" the umpire's voice rang out—and then the game began;
 But in that throng of thousands there was not a single fan
 Who thought that Mudville had a chance, and with the setting sun
 Their hopes sank low—the rival team was leading four to one.

The last half of the ninth came round, with no change in the score.
 But when the first man up his safe the crowd began to roar;
 The din increased—the echo of ten thousand shouts was heard
 When the pitcher hit the second and gave four balls to the third.

Three men on base—nobody out—three runs to tie the game;
 A triple meant the highest niche in Mudville's hall of fame;
 But here, the rally ended and the gloom was deep as night.
 When No. 4 to catcher fouled and flew out to right.

A dismal groan in chorus came—a scowl was on each face—
 When Casey walked up, bat in hand, and slowly took his place;
 His bloodshot eyes in fury gleamed—his teeth were clinched in hate,
 He gave his cap a vicious hook, and pounded on the plate.

But fame is fleeting as the wind and glory fades away;
 There were no wild and woolly cheers—no glad acclaim this day;
 They hissed and groaned and hooted as they clamored "Strike him out!"
 But Casey gave no outward sign that he had heard the shout.

The pitcher smiled and cut one loose—across the plate it sped—
 Another hiss—another groan—**STRIKE ONE!** the umpire said;
 Zip! Like a shot the second curve

broke just below the knee—
"STRIKE TWO!" the umpire roared aloud—but Casey made no plea.
 No roasting for the umpire now—his was an easy lot;
 But here the pitcher whirled again—was that a rifle shot?
 A whack—a crack—and out through space the leather pellet flew—
 A blot against the distant sky—a speck against the blue.

Above the fence in center field in rapid whirling flight.
 The sphere sailed on—the blot grew dim and then was lost to sight.
 Ten thousand hats were thrown in air—ten thousand threw a fit—
 But no one ever found the ball that mighty Casey hit.

Oh, somewhere in this favored land dark clouds may hide the sun;
 And somewhere bands no longer play and children have no fun;
 And somewhere over blighted lives there hangs a heavy pall;
 But Mudville hearts are happy now—
FOR CASEY HIT THE BALL!

SITUATION SERIOUS.

(Calgary Herald.)

The trouble with the mortar mixers involving as it did the bricklayers and stonemasons and tying up the building trades of the city, is one of the most critical in the history of Calgary. J. C. McNeil, who was most anxious of all the contractors to get to work again, was inclined to shut up the work for the summer in face of the demands of the laborers. Contractor McLaughlin stated that he was prepared to walk out of town and quit it cold. The Alberta Building Company were influenced by the fact that they were compelled by the Government to proceed with the work on the post office. They received a telegram from Ottawa telling them to go ahead in spite of everything. The work had to be done. The demands of the mortar-mixers and laborers' unions are somewhat modified to-day. They do not ask that the contractors sign the schedule but are understood to be prepared to go back to work provided the contractors are willing to do for them what is fair.

The masons stated to J. C. McNeil that they were not willing to work with non-union laborers, and it was understood at the meeting of the exchange that they would go out in case other laborers were employed. It is probable, however, that there will be no difficulty on this score in view of the agreement recently made.

PICKPOCKETS IN CALGARY.

(Calgary Herald.)

W. S. Rippin, who is registered at the Queen's, reports that as he was travelling to Calgary he found a man whom he describes as about 35 years of age, smartly dressed and wearing a hard felt hat, busily engaged in investigating the contents of his grip. Mr. Rippin, being of a kind-hearted disposition, let him go.

He was seen by Mr. Rippin in town yesterday.

HUTCHISON ON TRIAL.

Calgary Herald: Fletcher Hutchison may arrive in the city to-day from Vancouver. His preliminary trial will take place before Inspector Duffus at Didsbury. Hutchison evidently kept the officers guessing for some time. He is believed to have gone to Nelson, B. C., last December, then to have doubled back on his trail when he was lost to the police until located in Vancouver.

Get in on the Ground Floor

North Jasper place has been very carefully subdivided by the Dominion Land Surveyors into Blocks, each containing twenty full sized lots of 150 feet x 50 feet. The streets are 66 feet wide and the lanes 16 feet. With the property sub-divided in this manner there will be no trouble in the future about allowances for streets, etc. The same cannot be said of many of the sub-divisions. Our advice is to buy a block, half block or quarter Block of this property, and buy it NOW, as there is nothing like getting in on the ground floor.

READY FOR CALGARY

The Edmonton ball team went south this morning on the C. & E. and will look for glories on the stamping grounds of the cow punchers in white. Whether they will make good remains to be seen. The team is composed of a nifty bunch of players, who have been in the field too long to be afflicted with stage fright or to be scared out of their stockings by any of the fancy curves of the ball twisters in the cow camp. The team is made up of the following players: Battery, Howard and Dobson, Vining, Zeazell, Gleason, Bradley, Wiley, Grady, F. Dobson.
They will play in Calgary today tomorrow and Thursday. On Friday they will play in Wetaskiwin on the return trip.

SCONA'S SKY HIGH SCORE

It was a sad story that the baseball boys from the capital related to the fans when they returned from the south side of the Saskatchewan last evening, drenched to the skin with the downpour, and with spirits equally dampened. In a game that was cut short at the fifth innings by the thun-

derhower, the Strathcona team sent the Edmonton sports up in the air on a foul fly and brought them down to earth again right in front of the tally board. A prolonged wall arose when their gaze rested upon the score. Six to one, it was, for the red men.

Nutt was in the twister's box for Edmonton, and brought disgrace on the whole family. His throwing was a cinch, and the subs on the Sconas had an easy time at the bat. Zeazell on 1st and Bradley on 3rd, the new men, played a fair game, but the fielding was not up to much. At the close of the first half of the fifth, the rain came on and the game had to be called off. The teams were as follows:

Edmonton—Nutt and Dobson, battery; Zeazell, 1st; Deaton, 2nd; Bradley, 3rd; Gleason, c.; Vining, Grady and Till, field.
Strathcona—Regan and Allen, battery; Ball, 1st; Wylie, 2nd; Winchester, 3rd; Wilson, s.; Dobson, left; Blain, centre; McKerricher, right.

NO SCORE

The football match between Strathcona and Edmonton on the Second street grounds last evening was somewhat of a disappointment being cut short by the heavy thunderstorm which came up. The Strathcona team did not show up till after eight, and when the teams lined up, the lightning was flashing vividly, and the sky was darkened with clouds. The boys went at it however, and fought out the first half neither team being successful in scoring. The second half was commenced, but had to be called off, the score still standing zero all. Walters, of Strathcona, refereed.

LACROSSE PRACTICE

All members of both lacrosse teams are expected to turn out to practice this evening at 7 o'clock on the Second street grounds. Now that the baseball team is away on its southern trip the grounds will be free every evening, and the lacrosse boys will do well to make the best of the opportunity to get in some good practice.
